

06 November 2024

Dear Parents/Carers,

Re: Year 7 Masters of Recall

From Monday 11th November, we will be commencing our Masters of Recall process for Year 7 students. Masters of Recall is a process centred on testing student retention of 'Powerful Knowledge.' This is the key information that is needed to make excellent progress in a subject and the assessment data will give us a deep insight into the progress that Year 7 students are currently making at Stoke Park

As part of the Stoke Park 'Seven Year Journey,' I am contacting yourselves as parents to advise on this process, as it is important to emphasise our commitment to providing your child with the best possible opportunities to reflect, aspire and achieve from an academic perspective. We believe that by testing 'Powerful Knowledge' retention once per term, in addition to individual teachers providing formative and summative assessment opportunities for students in every lesson, that we create the right environment for children to gain, retain and address any gaps in their knowledge, whilst improving their meta-cognitive skills, on a regular and consistent basis. In turn, the adoption of the Masters of Recall process in Year 7 this academic year, will help facilitate the absolute best qualifications and associated positive life opportunities for our students in the future, following their examination success at GCSE & A-Level in the final stages of their 'Seven Year Journey' at Stoke Park School.

Should you wish to gain further insight into your child's studies by discovering the 'Powerful Knowledge' they are currently learning in respective subjects, or to help them to prepare for their upcoming Masters of Recall tests, then I would urge you to access our school website and click on 'Academic Programme'; followed by 'Masters of Recall' and 'Year 7'. Here you will find lists and explanations for 'Powerful Knowledge' in each subject that your child currently studies

The first wave of Masters of Recall tests will take place in the week beginning 11/11/24 and tests will be completed digitally. I cannot stress enough just how important it is for students to attend school all of time and especially during this process. As you are aware, there are clear links between good levels of attendance at school and academic success, and the pursuit of this is what drives us to provide the very best learning opportunities to all of our students at Stoke Park.

Please do contact me, should you have any further questions or wish for more information about the Masters of Recall process.

Thank you for your continued support,

Yours faithfully,

Mr Hughes
Assistant Headteacher
