You can contact the school as the Data Controller in writing at:

What is a Privacy Notice?

A Privacy Notice sets out to individuals how we use any personal information that we hold about them. We are required to publish this information by data protection legislation. This Privacy Notice explains how we process (collect, store, use and share) personal information about our pupils and parents.

What is Personal Information?

Personal information relates to a living individual who can be identified from that information. Identification can be by the information alone or in conjunction with any other information in the data controller's possession or likely to come into such possession.

'Special category' personal information relates to personal information revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, and the processing of genetic data, biometric data for the purpose of uniquely identifying a natural person, data concerning health or data concerning a natural person's sex life or sexual orientation.

What personal information do we process about pupils and parents? The pupil and parent information that we collect, hold and share includes:

- Personal information including a pupil's name, date of birth, unique pupil number and home address
- Characteristics such as ethnicity, language, nationality, country of birth and free school meal eligibility
- Attendance information such as sessions attended, number of absences and absence reasons.
- Educational information including records of work, assessment results, relevant medical information, details of pupils' special educational needs, exclusions/behavioural information, post-16 learning information.
- Contact information for parents, carers and other relatives, including telephone numbers, home addresses and e-mail addresses.

- Information about a child's home life, where required as part of necessary safeguarding and welfare processes.

Why do we use personal information?

We use pupil data:

- to support pupil learning
- to monitor and report on pupil progress
- to provide appropriate pastoral care
- to assess the quality of our services
- to comply with the law regarding data sharing
- to safeguard pupils

Collecting pupil information

Whilst the majority of pupil information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with the General Data Protection Regulation, we will inform you whether you are required to provide certain pupil information to us or if you have a choice in this.

What are the legal reasons for us to process your personal information?

We are required to process personal information in accordance with data protection legislation and only do so when the law allows us to. The lawful reasons we have for processing personal information are as follows:

1) To comply with the law

We collect and use general purpose student information in order to meet certain legal requirements and legal obligations placed upon The Futures Trust by law. We therefore are required to process personal information for such purposes even if you have not consented to us doing so.

Details of the type of processing that we must undertake, the personal data that is processed, the legislation which requires us to do so and who we may share this information with is set out in Table 1. If you would like a copy of or further information regarding the statutory authorities that underpin our legal obligations, you should contact The Futures Trust in writing.

2) To protect someone's vital interests

We are able to process personal information when there is an emergency and/or where a person's life is in danger.

Details of the type of processing that we may undertake on this basis and who we may share that information is set out in Table 2.

3) With the consent of the individual to whom that information 'belongs'

Whilst much of the personal information processed is in accordance with a legal requirement, there is some personal information that we can only process when we have your consent to do so. In these circumstances, we will provide you with specific and explicit information regarding the reasons the data is being collected and how the data will be used.

Details of the type of processing that we may undertake on this basis and who we may share that information is set out in Table 3.

4) To perform a public task

It is a day-to-day function of The Futures Trust to ensure that students receive the education and support they require. Much of this work is not set out directly in any legislation but it is deemed to be necessary in order to ensure that students are properly educated and supported.

Details of the type of processing that we may undertake on this basis and who we may share that information is set out in Table 4.

In certain circumstances, an individual has the right to object to any processing where it is likely to cause or is causing harm or distress. To exercise this right, individuals should do so by contacting Stoke Park School to inform them of their reasons for the objection. These reasons should relate to your specific circumstances. Upon receipt of an objection, Stoke Park School will consider the reasons for the objection and balance this against the legitimate grounds to process data.

5) We have a legitimate interest

Occasionally we have reasons to process information which fall outside of our usual day-to-day school functions. Details of the type of processing that we may undertake on this basis are set out in Table 5. In certain circumstances, an individual has the right to object to any processing where it is likely to cause or is causing harm or distress. To exercise this right, individuals should do so by contacting Stoke Park School to inform them of their reasons for the objection. These reasons should relate to your specific circumstances. Upon receipt of an objection, Stoke Park School will consider the reasons for the objection and balance this against the legitimate grounds to process data.

Special category personal information

In order to process 'special category' data, we must be able to demonstrate how the law allows us to do so. In addition to the lawful reasons above, we must also be satisfied that **ONE** of the following additional lawful reasons applies:

- 1) Explicit consent of the data subject
- 2) Processing relates to personal data which is manifestly made public by the data subject
- 3) Necessary for establishing, exercising or defending legal claims
- 4) Necessary for reasons of substantial public interest
- 5) Necessary for preventive or occupational medicine, or for reasons of public interest in the area of public health
