Dear Parent/Carers

Better together: we are pleased to inform you that our school uses Class Charts, an online platform that helps us strengthen communication between home and school and support students in achieving their best.

Class Charts allows parents and carers to access important information about their child's school life in one convenient place. This will replace SIMs Activities.

This week, parents/carers and pupils will receive a code to log on. There will be a paper copy and parents/carers will receive an e mail.

Class Charts will go live on Monday 14th September.

What is Class Charts?

Class Charts is a secure online system that enables parents/carers/, students, and staff to work together to support learning and wellbeing. Through the platform, you can:

- See positive achievements and rewards awarded by staff.
- View behaviour information where appropriate.
- See your child's detentions.
- See your child's timetable.

By regularly checking Class Charts, parents can have meaningful conversations with their child about learning, organisation, and achievement.
